

# The Human Brain

Describe the different parts of the brain and their function in the table below. Use the information from the table to label and colour the diagram.

| PARTS OF THE BRAIN |                       | FUNCTIONS IT CONTROLS |
|--------------------|-----------------------|-----------------------|
| Frontal lobe       | <input type="radio"/> |                       |
| Parietal lobe      | <input type="radio"/> |                       |
| Occipital lobe     | <input type="radio"/> |                       |
| Cerebellum         | <input type="radio"/> |                       |
| Brain stem         | <input type="radio"/> |                       |
| Temporal lobe      | <input type="radio"/> |                       |
