

Leaving your legacy

Registered charity: 1183086

We are, Harry's Hydrocephalus Awareness Trust (Harry's HAT) a registered charity which works tirelessly to make life better for children and their families affected by hydrocephalus. As a charity founded by parents of a child with the condition we know why our work matters.

After looking after family and friends, even a small gift in your Will could help us shine a light in the dark for a child and their family affected by hydrocephalus.

-  **£500 will buy 75 Bravery Bears meaning children going through hydrocephalus related brain surgery are recognised.**
-  **£1000 will pay for four nurses to attend training and share learning which will improve patient care.**
-  **£5000 will enable us to provide targeted Sibling Support to 45 young people affected by hydrocephalus for one year.**
-  **£10000 will fund our Shunt Pathway Programme which aims to improve the care pathway for children experiencing shunt malfunction across the UK.**

For information about leaving a gift to Harry's HAT in your Will please contact **caroline@harrys-hat.org**
